

Arunjyoti Bio Ventures Limited

Arunjyoti Bio Ventures Ltd is a trusted co-packing partner specializing in beverage manufacturing for leading multinational corporations. As a BSE-listed company, we are committed to delivering operational excellence, quality, and timely execution. With cutting-edge infrastructure and a skilled workforce, we provide end-to-end co-packing services for a wide range of beverages, including non-carbonated water, juices, energy drinks, and more.

We proudly manufacture **Tata Water** and **Tata Gluco+** for **Tata Consumer Products Limited**, operating from two advanced facilities in **Telangana** and **Andhra Pradesh**. Our operations include:

- **8 high-capacity production lines:**
 - **4 Water Lines** (150 bottles per minute)
 - **4 Juice Lines** (180 containers per minute)
- **Manufacturing Capacity:**
 - **90 lakh cases/year** of water
 - **60 lakh cases/year** of Tata Gluco+ juice

Our facilities are BIS-compliant and FSSAI-licensed, ensuring full regulatory adherence. With robust infrastructure that includes clean rooms and high-speed automation, we are equipped to handle large-scale production while maintaining consistency, safety, and product integrity.

We take pride in our commitment to:

- Strict adherence to the quality guidelines of our MNC partner
- Procuring raw and packaging materials from trusted, high-quality vendors
- Maintaining a ready inventory to ensure swift and reliable product dispatch

As we scale new heights, we welcome investors and partners to join us in our journey of innovation, growth, and excellence in the non-carbonated beverage industry.
